

HASTEN TROOPS TO PHILIPPINES

Alger Orders Departure of Transports

PRESIDENT ANXIOUS FOR RETURN OF VOLUNTEERS.

McKinley is of the Opinion That Their Home Coming is of More Importance Than Waiting For Reinforcements For Otis—Shafter Makes Two Propositions to the War Department, the First of Which is Acted Upon—Regular Army Up to Authorized Strength—New Regiments Will Be Gathered Under a Special Act.

Washington, June 24.—[Special]—Secretary Alger wired Gen. Shafter at San Francisco to hasten the departure of the transports to Manila that the speedy return of the volunteers may be accomplished.

Shafter had made two propositions to the war department; one that the transports should go at once not taking as many men as they could carry, and the other to hold the vessels until next week when they could be sent out full. The president decided that it was not so important to get out the reinforcements as it was to get the volunteers home.

Washington, June 29.—It was definitely decided Wednesday to begin the enlistments for the volunteer service under the act of the last congress. The reports to the adjutant-general, based on the figures from the recruiting officers and on close estimates as to the number of soldiers in the Philippines and in each command in Cuba and Porto Rico show that the regular army is up to its full authorized strength. The additional soldiers needed must be obtained under that section of congress authorizing the enlistment of volunteers. The only exception will be in the case of the few enlistments that will be made from time to time to fill the gaps in the regular army caused by casualties and by the expiration of enlistments.

The officers scattered among the principal cities of the country, who have been enlisting regulars only, will be instructed immediately to prepare to enlist volunteers. The present indications are that about 10,000 men will be wanted.

Secretary Alger, Adj.-Gen. Corbin and Col. Bird, assistant quartermaster-general, in charge of transportation, had a consultation with the president relative to the question of reinforcements for Gen. Otis. A definite decision was reached to continue recruiting men at all the recruiting stations for service in the Philippines and Secretary Alger said when he left the white house after the conference that Gen. Otis would have 40,000 men when the rainy season closed for a resumption of active operations. The recruits are to be organized into regiments or assigned to regiments already formed after enlistment. No organizations, as such, are to be accepted if sufficient recruits can be obtained by regular enlistment.

Gen. Corbin said that the enlistments would be for three years, although the law for the creation of the provisional army of 35,000 in excess of the regular army of 65,000 provides only for such a force until 1901. Arrangements are to be made at once for increasing the transportation necessary to get these additional troops to the Philippines.

Officers for these volunteer regiments will be obtained by promoting officers now in the regular army and by commissioning many of the best officers of the volunteer organizations which saw service. The war department has carefully preserved the records of these officers and has at hand a long list of such of them as exhibited soldierly and organizing qualities.

The decision to reinforce Gen. Otis by the end of the rainy season is interpreted to mean that aggressive campaigning will cease until the bad weather ends.

SAYS END OF WAR IS AFAR OFF

Discouraging Story Comes from Yokohama—Americans Lose Heavily.

Vancouver, B. C., June 29.—Louis la Dow, who recently arrived in Yokohama from Manila, is quoted in the last Japanese papers as expressing the conviction that the end of the war in the Philippines is by no means yet in sight.

The official reports of American losses, he thinks, are not wholly reliable, as they make no allowance for the numbers who die in the hospital. The number of Americans killed in battle or who have died in the hospitals since the outbreak of hostilities will, he thinks, easily reach 5,000.

The volunteer forces he regards as the flower of the army of occupation, for their year's training has made them as efficient as any regulars in the world. Unfortunately the more recent dispatches of re-enforcements are not nearly so good as the original volunteers, who were not actuated by any

prospect of high pay, but by patriotism or love of adventure.

The later arrivals will require a good deal of licking into shape. The original army of occupation is not in a pleasant frame of mind. They are, in the first place, perfectly willing to fight against any civilized power in ordinary warfare, but they object to wasting their lives and health upon the Filipinos and they indulge in many growls at the necessity which compels them to be on the "qui vive" day and night, in order not to be caught napping by their cunning enemies.

One feature of the war is that, although so many natives have been killed, very few weapons have been captured. The moment a Filipino falls there are ten others ready to snatch up his rifle and make off with it. Their numerical resources are practically inexhaustible, whereas the Americans can only obtain fresh men after long delays and at great expense. It is a remarkable fact that, although the American troops have often remained in the trenches in a soaking condition for days at a time, they have never caught cold.

Force Brush with Rebels. Manila, June 29.—Capt. Gale's squadron of the Fourth cavalry embarked for Morong Monday. The gunboat Napidan, which accompanied the troops, visited the town of Muntulupa, on the west shore of the lake, and found a small body of rebels entrenched there. The intrenchments were shelled by the Napidan and when the rebels began to retreat the cavalry was landed. The Filipinos, in firing a final volley, killed a cavalry private.

Sails for Manila.

San Francisco, Cal., June 29.—The transport Valencia sailed to-day and the Pennsylvania will leave on the 30th for Manila. The headquarters' band, two troops of the Fourth cavalry and two companies of the One Hundred and Twenty-fifth infantry sailed on the Valencia.

The headquarters and Company H of the Twenty-fourth, two companies of the Twenty-fifth infantry and 500 recruits will sail on the Pennsylvania. The transport Cleveland has been chartered again and it is said that she will take down 400 recruits on her next trip, as well as a general cargo.

Indians Would Fight.

New Carlisle, Ind., June 29.—The work of re-enlisting the companies comprising the One Hundred and Sixteenth Indiana has been begun and is progressing rapidly. The report that a call will be issued for ten regiments of volunteers has caused the present activity in military circles. Indiana will furnish one regiment if the call is made.

No Cuban Soldiers to Manila.

Washington, June 29.—There can be no truth in the report that the president and Secretary Alger favor a plan to send 10,000 Cuban soldiers to the Philippines. Under present laws aliens cannot serve in the United States army. This would deprive Cubans unless they became citizens. There is no Cuban army 10,000 strong.

More Troopships Sought.

Washington, June 29.—Quartermaster General Ludington is making arrangements for chartering more transports for service between San Francisco and Manila, to admit of re-enforcements reaching the Philippines before the end of the rainy season.

JUNG LU IS PLOTTING

Favorite of the Dowager Empress Schemes to Usurp the Throne of China.

Victoria, B. C., June 29.—[Special]—Advices from China say that Jung Lu, the Dowager Empress' favorite, is plotting to usurp the throne of China.

Prohibits Importation of Negroes.

Little Rock, Ark., June 29.—A proclamation has been issued by Gov. Jones prohibiting further importation of negro coal miners to take the place of the striking miners in the western part of Kansas, principally in Sebastian county.

Mrs. McKinley Recovering.

Washington, June 29.—Mrs. McKinley has so far recovered from the slight illness which caused the president's return from Massachusetts that she was able to drive out Wednesday afternoon. She was accompanied by the president.

Wood for a Cabinet Place.

Havana, June 29.—The local papers assert that Maj.-Gen. Leonard Wood has been offered by President McKinley a position in the cabinet as the head of the proposed new department of the colonies, in the event of congress authorizing the department.

Knights of St. John Election.

Cleveland, Ohio, June 29.—Supreme officers were elected by the Knights of St. John here Wednesday. Col. H. J. Fries of Erie, Pa., was chosen supreme president.

An amendment to the constitution adopted provides that any member of the order who has attained the age of 45 and has other qualifications shall be placed on the retired list if he desires it.

Philadelphia was chosen as the next meeting place.

RACINE MAN GIVEN DOLLAR WORTH \$1,000

DRY GOODS CLERK ENRICHED BY RARE COIN.

Thomas Powell, of Kenosha County, Wins Money and a Bride—Heroic Act of a Wisconsin Man Has An Unusual Sequel—Falls Heir to \$5,000.

Racine, Wis., June 29.—Vladislav Altman, a clerk in the leading dry goods store in this city, took in a silver dollar a few days ago that has netted him \$1,000.

An old woman entered the store and purchased a bill of goods from Altman. She handed out a worn silver dollar and the clerk hesitated before taking it. He then discovered that it was dated 1804. Only a few coins of this date are in existence and at the banks it was found they are quoted at \$500 each. Altman sent the dollar to a friend in Chicago, who took it to a coin collector and sold it for \$1,000.

The woman who gave the coin at the store is not known. There is some dispute as to whether the coin belongs to Altman or the owner of the store. The proprietor claims the clerk should have turned it into the cashier, instead of keeping it and turning in another dollar. Whether litigation will follow is not decided.

Wins Money and a Bride.

Racine, Wis., June 29.—Thomas Powell of Paris, Kenosha county, has fallen heir to \$5,000, and there is an interesting story back of it. Mr. Powell was a railroad man and engaged at Stevens Point, Wis. One day he distinguished himself by stopping a runaway team of horses, saving a wealthy lady and her daughter from being badly hurt or killed. The husband of the woman died a short time ago, and in his will left Mr. Powell \$5,000. An attachment sprang up between Powell and the daughter soon after the happening, and it is said in a few days announcement cards of their marriage will be issued.

Fox River on a Tear.

Green Bay, Wis., June 29.—The water in the Fox and East rivers driven by wind, is above all previous high water marks and heavy damage is threatened to property along the rivers.

The water is several feet deep in the low north of the city, and residents of that city have temporarily abandoned their houses. Basements along the river front are flooded and large quantities of goods have been spoiled. A fleet of boats are laying at anchor outside of the harbor unable to enter.

The Jergenson-Blesch company, wholesale and retail dry goods and carpets, estimate that their loss is \$20,000.

TROOPS GO TO AFRICA

Hall's Brigade and a Division of Artillery Ordered There From England.

London, June 29.—[Special]—Hall's brigade and a division of artillery have been ordered to proceed to South Africa July 14.

IS DREYFUS AT RENNES

Rumor Persists That He is There—Wife Says She Will See Husband July First.

Rennes, June 29.—[Special]—Rumor persists that Dreyfus has arrived here. Madame Dreyfus is said to have told friends that she will see her husband July first.

Flames Threaten the Town.

Portland, Ind., June 29.—For two hours Wednesday afternoon, Winchester, the county seat of Randolph county, was threatened with total destruction by fire. This city, Muncie and Richmond were called upon for help and a special train was made up at the latter place and given full right of track to convey help. The fire started in a barn and destroyed the Methodist church, four fine dwellings and eight barns, with a loss estimated to be from \$45,000 to \$50,000. It was gotten under control before the outside help reached there.

Censorship Is Declared.

Washington, June 29.—A censorship of the news was declared by the war department in the promulgation of an order signed by Adj.-Gen. Corbin calling attention of officials and clerks to the fact that news was being given out which had not previously been approved by him, and adding, "Under no circumstances will newspaper reporters be furnished any data on any subject except by officers of the adjutant-general's office or by the secretary of war or the assistant secretary of war."

Chautauqua Assembly Opens.

Chautauqua, N. Y., June 29.—The twenty-sixth annual meeting of the Chautauqua assembly opened Wednesday with the largest attendance for an opening day in the history of the assembly. The association since last year has received an endowment of \$50,000, one-half of which has come from Miss Helen Gould. It is hoped to increase this endowment to \$200,000. The new Hall of Christ, to cost \$200,000, will be erected this summer, the money for its construction being on hand.

BRUSSELS' RIOTING CONTINUED ALL NIGHT

GOVERNMENT ELECTORAL BILL CAUSES MORE TROUBLE.

Troops Receive a Shower of Paving Stone Thrown From Mob—Several Volleys Fired and Six Gendarmes Injured in the Fracas—Reinforcements For Soldiers Arrive.

Brussels, June 29.—[Special]—Rioting over the government's electoral bill continued throughout the city until day-break today.

Troops who were called out to quell the disturbances received a shower of paving stones from the mob, whereupon they fixed their bayonets and charged the rioters.

Several volleys were also fired, and six gendarmes were injured in the fracas. Every window in rue Arenberg was smashed, and lamp posts were uprooted to use by the mob as battering rams wherewith to attack the troops.

Reinforcements for the troops are arriving today.

The king had a long conference today with the president of the chambers who was summoned from The Hague for that purpose.

The king also conferred with the minister of war, concerning the disturbances.

EDITORS IN A PARADE

Great Sangerfest Opens at Cincinnati—Floats and Divisions Were Burlesques.

Cincinnati, June 29.—[Special]—The great Sangerfest opened this morning, when the newspaper men's parade occurred. The spectacle was highly amusing, the floats and divisions being ludicrous burlesques. Thousands of people viewed the procession.

BIG RACE POSTPONED

Rough Weather Interfered With the Harvard-Yale and Freshman Matches Today.

New London, Conn., June 29.—[Special]—The Yale-Harvard four-oared and freshman races, which were to be rowed this morning, were postponed on account of rough weather until late this afternoon.

The day opened rainy with a stiff wind blowing.

FORECAST OF WEATHER

Chicago, June 29.—[Special]—Forecast for Wisconsin: Fair tonight; Friday, warmer.

Gorman Still Ill at Laurel.

Baltimore, Md., June 29.—EX-Senator Gorman continues in poor health and has been unable to attend any of the meetings of the democratic state or executive committees in this city to make arrangements for the state campaign. He is at his country home at Laurel, where he has held conferences with Maryland leaders and members of the national committee relative to the campaign of 1900. Mr. Gorman probably will leave in a few days for a northern resort to remain until fall.

Tin Plate Trust Danks Fires.

Anderson, Ind., June 29.—The tin plate trust Wednesday began banking their fires in their big plant in this city and Elwood and at all other points, preparatory to a complete shutdown Friday night. The workers do not expect a settlement of the wage scale for some time, and they are leaving for the east to spend the time the plants are closed. Ten thousand will be thrown out of employment in Indiana by the failure to adjust the scale for the ensuing year.

Strike Far from Settlement.

Chicago, June 29.—Striking stockyards men held a meeting yesterday afternoon and received reports from committees that had been appointed in secret to ascertain the feeling of the men. These reports indicated that the trouble in the stockyards was a long way from settlement, and that it would require a general advance in wages to insure peace in the yards after July 1, when the men expect to make a demonstration.

More Fighting May Follow.

Birmingham, Ala., June 29.—Ominous conditions prevail at Cardiff and at Blossburg owing to the killing of negroes near Cardiff Tuesday. The colored miners refuse to work, and additional guards have been posted to prevent another race clash. Both sides maintain a sullen attitude, and fears are expressed that the fighting is not ended.

Odd Fellows Dedicate a Chapel.

Lincoln, Ill., June 29.—The new chapel building of the Illinois Odd Fellows' Orphans' Home was dedicated Wednesday by grand lodge officers according to the ritual of the order. The principal address was delivered by Grand Master Berry of Carthage. The building is of red pressed brick, with stone trimmings, and cost about \$10,000.

TO SEND NEGRO MINERS SOUTH

Gov. Tanner Denies Appeal of Destitute Men at Panama.

Springfield, Ill., June 29.—R. H. Frinkleton and C. H. Dorsey, representing the non-union negro miners at Panama, came to Springfield Wednesday and asked Gov. Tanner to assist the negroes at Panama to return to their homes in Alabama. They told a pitiful story of the destitution existing among the colored people at Panama and said that unless they were given transportation to their homes they would soon become charges upon the charity of Christian county. The governor asked that he be furnished with a list of the families that are destitute and the delegates promised to send it to him in the morning. He stated that he would endeavor to find some means of aiding the negroes to leave the place, as he regarded their presence at Panama as a menace to peace, now that they are out of work.

Frinkleton and Dorsey are very bitter in their denunciation of the Panama operators, who have refused to aid them in getting out of the town. The union miners are, on the other hand, most considerate of them and have been feeding the destitute families.

CREW PERISH IN GALE

Steamer State of Ohio Arrives at Toledo with the Only Surviving Members.

Toledo, June 29.—[Special]—The Cleveland-Toledo steamer "State of Ohio," arrived here with the only surviving members of the crew of the schooner Margaret O. L. Will, which foundered in a gale last night off Lorain, Ohio. The O. L. Will crew was composed of about twelve men.

MRS. M'KINLEY BETTER

She Is Still Confined to Her Room—Physicians Feel Not the Slightest Alarm.

Washington, June 29.—[Special]—Mrs. McKinley continues to improve, but is still confined to her room. Her physicians state that they feel not the slightest alarm concerning her recovery.

NO FURTHER CONCESSIONS.

President Annoyed by Canada's Obsolete Actions.

Washington, June 29.—The Alaskan boundary has been the subject of consideration by the president since his return from New England. When Mr. McKinley went away he thought that the modus vivendi was practically established. Secretary Hay's advice from London led to this conclusion. Great Britain had proposed certain points as a temporary line, and the United States had agreed to them. It was considered as good as settled that White pass, Chilkoot pass, and the Indian town of Klukwan would be observed as the boundary. But the president comes home provoked to find the Canadian government unwilling to stand by Great Britain's proposal, and demanding a modus vivendi which shall bring Canadian jurisdiction nearer to the coveted tidewater. The feeling of the president and Secretary Hay, stated as mildly as possible, is that this government has conceded all that can be asked.

Union Men Are Well Armed.

Anderson, Ind., June 29.—Every man at Lapel is armed and the Heine hotel has been converted into a fort to resist the threatened return of the non-unionist mob which made an attack Tuesday and demolished all the windows and part of the building itself. The threat that the building and all of the union men would be blown up with dynamite caused such preparations to be made. Sheriff Moore is in charge of the town, and with his deputies has been able to keep the warring factions quiet. It is feared, however, that trouble will start at any time.

Singers at Cincinnati.

Cincinnati, Ohio, June 29.—The opening concert of the golden jubilee saengerfest of the North American Saengerbund did not take place last night, as was intended, postponement until tonight being necessary, as the new hall was not in readiness. About 120 singing societies have arrived in this city during the last few days, and many thousands of visitors, mostly Germans, with their families, from all parts of Ohio, Indiana and Illinois and other neighboring states.

Porto Rico Free from Fever.

Washington, June 29.—Admiral Van Reypen, surgeon-general of the navy, has received a report from the surgeon on duty at Porto Rican ports, stating that a most satisfactory sanitary condition exists throughout the island, and that there is not a trace of yellow fever.

Smallpox at Vienna, Ill.

Vienna, Ill., June 29.—Dr. Thomas Morgan of Goreville, this county, reports a case of smallpox on the works of the New Orleans, Eastern and Illinois railroad, twelve miles from Vienna.

Reported Combination Confirmed.

New York, June 29.—The reported combination of the coal companies of the Pittsburgh district is confirmed. The capital stock is to be \$40,000,000.

OSHKOSH FIRM TO REMOVE HERE

Well Known Furniture Co. Secured

TO OCCUPY THE HALL FACTORY NEXT MONTH.

One of the Most Valuable Manufacturing Enterprises in the State of Wisconsin—Employed 260 Workmen When in Operation—Thoroughgood's Purchase Explained—Costly Improvements First to Be Made in the Local Plant.

When ex-Mayor John Thoroughgood made the purchase of the Janesville Furniture Company's factory at Spring Brook last week, he had an object in so doing.

From the city of Oshkosh next month will come the Choate-Hollister Furniture company which in a short time will mean the employing of at least a hundred hands.

For several days past negotiations have been pending for the removal of the Oshkosh firm here and now that the necessary papers have been signed, the deal is no longer a secret.

I. J. Estes, of Oshkosh, who has acted as general manager of this enterprising firm, was in the city today in consultation with local interested parties.

On the part of the Oshkosh firm General Manager Estes has transacted necessary business while Attorney G. G. Sutherland and ex-Mayor Thoroughgood have been most active in behalf of local interested parties.

The Oshkosh firm will occupy the Spring Brook factory just as soon as it can be remodeled.

Every available inch of space will be utilized and the most modern machinery will be placed therein.

The manufacture of dining room furniture will be the one specialty of the new firm.

Several weeks ago the Choate-Hollister Company had the misfortune to lose their plant by fire at Oshkosh, and at a time when they were enjoying a large business.

Since the fire, several cities have been anxious to secure them, among which were Appleton and Fond du Lac, the citizens of which city held out special inducements in the way of factory buildings and large sums of bonus money.

Ex-Mayor Thoroughgood, when seen by a Gazette representative this noon stated: "I was not ready to give you the desired information in relation to the securing of this well known Oshkosh firm but as you have obtained your information some where else, I suppose I might just as well tell you a few facts in the matter."

"It is true that we have secured to Choate-Hollister Furniture Company, of Oshkosh, to move their enterprise here and occupy the former Hall furniture factory in the Spring Brook addition."

"When I purchased the factory, I had this in view, and now if we cannot make a go of it, I do not think anyone can."

"I. J. Estes of Oshkosh, who acted as general manager, will move his family here, as he will also occupy his old position with the firm here."

"I expect the factory will be in operation next month, employing a large force of men. I am interested as a stockholder, as are also other local parties, as well as Oshkosh men."

"For the present at least, or until we secure our charter and elect officers, I will be unable to give you further information."

The Choate-Hollister company when in full operation at Oshkosh, employed two hundred and sixty men, the majority having families. Since the burning out of the company there, the greater portion of these men have been out of employment, waiting for the company to resume work. Many of the men found work in other factories, while a few went to other cities.

When the Oshkosh firm starts here, many of these men will remove to the Bowler City to reside.

Following were the officers of the Oshkosh firm at the time of the fire:

President—Leander Choate.
Vice President—S. Hollister.
General Manager—I. J. Estes.
Secretary Treasurer—Geo. T. Brown.

Large quantities of lumber have already been ordered and a dry kiln to hold several thousand feet of lumber at a time will be constructed.

Worsted Mill Trust Formed.

Philadelphia, Pa., June 29.—It is announced authoritatively that options on nineteen worsted mill plants have been accepted, and that the worsted mill trust will begin operations on July 3. The majority of the plants are in and around this city. The company starts with a capital of \$16,000,000 7 per cent preferred stock and \$20,000,000 common stock.

Dewey Sails for Port Said.

Colombo, June 29.—Admiral Dewey sailed hence for Port Said at 4 o'clock Wednesday afternoon. His health has improved since he arrived in Ceylon. Nothing is known of Admiral Dewey's future plans here, except that he will get through the Red sea and the Suez canal as rapidly as possible.

"Necessity

Knows No Law."

But a law of Nature bows to the necessity of keeping the blood pure so that the entire system shall be strong, healthy and vigorous.

To take Hood's Sarsaparilla, the great blood purifier, is therefore a law of health and it is a necessity in nearly every household. It never disappoints.

Tired Feeling.—"I had that tired, dull feeling, dyspepsia, headaches and sinking spells, but Hood's Sarsaparilla made me new man. I never was better than now." JOHN MACK, Oskaloosa, Iowa.

Rosy Cheeks.—"I have good health and rosy cheeks, thanks to Hood's Sarsaparilla. It builds me up and saves doctor's bills." MARY A. BURKE, 604 East Clair Street, Indianapolis, Ind.

Rock River
Rock River, June 29—Messdames Kitto Vincent and Lillian Vincent visited at Edgerton, Thursday. Miss Ella Atherton is visiting at Charley Hudson's this week. Mrs. N. M. Rose and Jennie Rose attended a school picnic in Harmony last Friday. Mrs. Hattie Bowers of Aurelia, Iowa, and Mrs. Addie Grey of Magnolia, Minn., who have been visiting friends and relatives at this place, will start for home the last of this week. Belle and Floyd Vincent spent Saturday and Sunday at Whitewater with their aunt, Mrs. Sarah Butler. Rev. E. B. Saunders preached last Sabbath in Rev. Talbert's place. He will soon go to Shiloh, N. Y., as the pastor in a church at that place. His many friends here regret his departure. A family reunion was held at Mrs. Almira Vincent's one day last week, all the children being present, consisting of Mr. and Mrs. Avery Vincent and family; Mr. and Mrs. Orlo Vincent and family; Mrs. Daisy Swader and baby, of Otter Creek; Mrs. Hattie Bowers, of Aurelia, Iowa; Mrs. Addie Grey of Magnolia, Minn., and Mr. and Mrs. Elmer Vincent. School meeting next Monday evening. Luella Ogden of Milton Junction, is visiting her grandmother, Mrs. Harriett Crandall. While working in the field one day this week Horace Alverson had the misfortune to stick a pitchfork through his foot. Jennie Hudson has been under the doctor's care for the past week, but is now able to be out. Mrs. N. M. Rose is staying with her daughter, Mrs. Elmer Vincent, helping care for little Katie Vincent, who has been dangerously sick, but under the care of Dr. McMannus is now improving.

North Magnolia.
North Magnolia, June 29—The corn is growing fast, also the weeds. Outworn are troubling some pieces of tobacco badly, some pieces being entirely destroyed by them. Mr. Weary has a new steel windmill up. The creamery is being improved by the addition of a coat of paint. We had a fine rain Wednesday. Mrs. Hall was in Evansville Friday; also Mrs. Frank Lee. Miss Chaple, of Evansville, spent Friday night with Mrs. York and went fishing with the crowd Saturday. They were a jolly company and the fish did not suffer any either. A number of the young folks talk of spending the Fourth in Magnolia. The B. N. A. hold an old fashioned picnic in Setzer's woods. The lawn party at Mrs. Emmon's was not largely attended, but all had a very enjoyable time. A nice young lady arrived at Mr. Lawrence Huff's last Friday. L. C. O'Brien was seen in the neighborhood this morning. Miss Grace Emmons goes to Milwaukee this week with her sister to attend the carnival. Several in the neighborhood attended children's services at the Advent church in Magnolia.

Bad management keeps more people in poor circumstances than any other cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shifflers follow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides, one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. CLINTON BOARD HAS
GRANTED LICENSESINSURANCE COMPANY ADJUST
BRADT FIRE LOSS.

Gets a Total of \$1,600 on Building, Furniture, Etc.—Fourth of July Parade Being Organized By Prof. Stanley—Many Attend Milwaukee Carnival—Personal News.

Clinton, June 29—The village board have decided to grant saloon licenses to William Stone, C. E. Jones and Thor. Thorson. These men have conducted their business in the past in such manner that the board feel that they will line up to the regulations of their license. A Fourth of July parade is being organized by Prof. Stanley. The fireworks have been purchased, and all is in readiness for a first-class celebration. The board of directors of the La Prairie Fire Insurance company met Tuesday, and adjusted the loss sustained by John Bradt in the burning of his dwelling house. There was an insurance of \$1,300 on the building, and the board gave him \$300 on furniture, provisions and wearing apparel which was destroyed, making a total of \$1,600. The annual school meeting will be held at the school building next Monday evening. M. P. Treat, whose time as clerk expires, has discharged the duties of that office in a very creditable and conscientious manner and should be re-elected. Rev. Wm. F. Leek will deliver the oration at Manchester on July 4th. Noxious weeds seem to be on the increase in many places in spite of the stringent law enforcing their destruction. However we are glad to note that the weed commissioners will look after the matter a little more closely this season. Two former Clinton girls, Miss Grace Hartshorn and Miss Ina Lette, we learn, have young sons. Clayton Rush we hear is far from well, suffering at present from an obstinate stomach trouble. Among those who took the noon train for Milwaukee Tuesday evening were A. V. Peters, J. Q. Simons, wife and son, J. C. Scott and wife, E. H. Ranson and wife, F. W. Harrow, George Anderson, Mrs. Amelia Harnshorn and Mrs. Warner. Dr. J. B. Crandall left this week for Salt Lake City to visit with relatives. Miss Emma Paulson, a popular Janesville teacher, is spending her vacation with her parents here. O. Turner, at one time a resident here, died recently in Chicago. Dr. Griswold claims to have caught a nine and one-half pound pickerel recently. Fred Finch and wife were late visitors here. We understand that Mrs. Patch was very sick last week. Will Hamilton has been making repairs on his farm buildings and, and Calvin Johnson's new barn is completed. Misses Maude Wilkins and Edna Conley attended graduating exercises at Central Music hall in Chicago last week. Mrs. Mary Scott, of Bradford, has been spending a little time with her daughter here. A. H. Morris is now a resident of Cedar Rapids, Iowa.

MEDICAL SOCIETY OFFICERS

Dr. J. F. Pember, of This City, Elected President.

Yesterday at the conclusion of a banquet at the Grand Hotel the members of the Central Wisconsin Medical society adjourned to their headquarters in the rooms of the Rock County Caledonian society where the afternoon session was resumed. The first business transacted was the election of officers which resulted as follows:

President—Dr. J. F. Pember, Janesville.
Vice Presidents:
First—Dr. L. F. Bennett, Beloit.
Second—Dr. George W. Roberts, Brodhead.

Third—Dr. J. W. Keithley, Orfordville.
Fourth—Dr. W. C. McManus, Edgerton.

Secretary and Treasurer—Dr. C. S. Sheldon, Madison.
Board of Censors—Dr. E. C. Helm, Dr. W. T. Scales, Sparta; Dr. J. A. Mack, Madison; Dr. James Mills, Janesville.

The next meeting of the society will be held at Baraboo, Wis., on the last Tuesday of September.

Owing to the lack of time, only one paper out of five on the program for the afternoon session was read; that of Dr. J. A. Jackson, of Madison. The subject was "True Surgery vs. Unsururgical Follies, Delusions and Inconsistencies." It was to the point and highly entertaining.

Shortly after six o'clock the meeting adjourned after one of the most profitable sessions in the history of the society.

I was seriously afflicted with a cough for several years, and last year had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. Respectfully, Mrs. Mary A. Beard, Claremore Ark. When the weather is foggy in England the railroad trains are protected by torpedoes placed on the tracks and exploded when the engine passes over them. The Great Eastern road in the London district alone uses 30,000 torpedoes every twenty-four hours, to say nothing of the 700 men to place them.

GIVE THE CHILDREN A DRINK
called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children as well as adults, can drink it with great benefit; costs about 1/4 as much as coffee, 15 and 25c.

HAD THRILLING EXPERIENCE

John W. Gateley and Daughter in a Run-away Yesterday.

J. H. Gateley and his daughter, Mrs. Alvah Maxfield, had a thrilling experience late yesterday afternoon in a run-away accident and it is a mystery that both escaped as luckily as they did. They were driving in the first ward in a single open buggy and the horse becoming frightened at a couple of dogs, commenced to run.

Mr. Gateley was thrown out with considerable force. Mrs. Maxfield clung to the reins for some distance but for fear that she could not stop the animal she managed to crawl over the seat and got out of the buggy.

Mr. Gateley was removed to the office of Dr. J. W. St. John, and later was taken to his home by Dr. St. John. His right leg and arm were badly bruised. Mrs. Maxfield's right arm was skinned and her clothing badly torn.

BITTEN BY VICIOUS DOG

Harry Kirkland, of This City, Had Lively Encounter With One.

While delivering papers this morning on Glen street, Harry Kirkland was attacked by a vicious dog belonging to O. J. Blakely and the canine managed to plant his teeth far into the boy's left leg.

The wound is a very bad one but prompt medical assistance was rendered and no further trouble is looked for.

Mr. Kirkland says that the same dog has made several efforts to bite him, but he has managed to fight him off each time.

A CHINESE VILLAGE.

One of the Attractions of the Philadelphia Exposition Next Fall.

One of the leading attractions in the way of amusements at the national exposition of American manufacturers for the expansion of export trade, to be held in Philadelphia next September, October and November, will be a Chinese village, or, more properly, a street of a Chinese city, with houses, stores, booths and everything complete to illustrate the home and business life of the Chinese and their native trades and industries, says the Manufacturer. The buildings will be constructed of materials brought from China, and native carpenters and artisans will erect every structure. The purpose is to make the street in every respect the counterpart of a street in Peking, Shanghai or Canton, and it is likely that 200 or more Chinese men, women and children will be brought from China to populate the miniature village.

There will be an entrance of Chinese architecture, and in the shops working models and machines will be exhibited, such as are used in the native manufacturing industries of China. These will include looms for weaving cloth, mat-weaving machines, a rice mill, a cotton gin, irrigating contrivances and agricultural implements. There will be a theater in which Chinese plays will be produced; a Chinese restaurant, with the native bill of fare; sedan chairs and other primitive conveyances used in China. One of the most interesting features of the village will be a house containing a reception room and bed chamber such as are seen in homes of the wealthy Chinese, illustrating home life in that far Eastern country.

NAVY'S TALL MAN.

Chief Yeoman J. E. Will Stands Six Feet Seven Inches.

J. E. Will, chief yeoman in the navy, who will take the part of Uncle Sam in the Peace Jubilee, is the tallest man in the navy, standing six feet seven inches in his bare feet. He is splendidly proportioned, and with a pleasant, handsome face, but of a quiet and unassuming nature, and preferring the society of his wife and little son to any of the variously assorted attractions at Washington. His father was German consul-general at Havana for several years, and it was while serving in that capacity that he met and won the woman who became the tall yeoman's mother. She was the daughter of the British consul-general at Cardenas, a Miss Schneidell. Young Will was born in Scotland, but his parents again located in Cuba, where they lived until 1872, when they moved to London, at which place his father and brother are now engaged in the exporting and importing business. When the war broke out Mr. Will, who had been engaged in Florida in the orange trade for a number of years, enlisted as a seaman, but his previous experience, and the further fact that he is a man of fine education, speaking English, German, French and Spanish, caused his promotion to chief quartermaster in the coast signal service. When the war closed he was ordered to Washington, and is now doing duty in the bureau of navigation.

Pins Disappear.

What becomes of pins? This common household conundrum has at last been solved by an old gentleman in London. By a series of experiments conducted in his back garden, he has discovered that pins go the way of all flesh, and are resolved into dust. Hairpins, which he watched for 154 days, disappeared at the end of that time, having been resolved into a ferrous oxide, a brownish dust, which was blown away by the wind. Bright pins took nearly 18 months to disappear; polished steel needles nearly two years and a half; brass pins had but little endurance; steel pens at the end of fifteen months had nearly gone, while their wooden holders were still intact.

TO CLEAN CARPETS.

If you have a carpet that looks dingy and you wish to restore it to its original freshness, make a stiff lather of Ivory Soap and warm water and scrub it, width by width, with the lather. Wipe with a clean damp sponge. Do not apply more water than necessary.

The vegetable oils of which Ivory Soap is made, and its purity, fit it for many special uses for which other soaps are unsafe and unsatisfactory.

PROMOTOR

Of Jungfrau Railroad Dies with His Great Work Unfinished.

Zurich (Switzerland) correspondence Chicago Record: A man unique in Switzerland, Adolf Guyer-Zeller, has just been buried in the little manufacturing village of Bauma, which was very nearly owned by the deceased financier and promoter. A special train left this city this afternoon, bearing to Bauma, besides the remains of M. Guyer-Zeller, a number of members of the Swiss Federal Council, the entire Greek Society of Zurich, a deputation of city officials and about 300 friends and business associates. M. Guyer was the only railway king Switzerland possessed, and his death has caused the expected flurry in railway stocks here. It was due to his marvelous zeal that most of the important railways of Switzerland were built. His greatest work was the Jungfrau railway, a project which has been pronounced impossible by modern engineers. When unable to find financial backing he decided to build it with his own money, and himself had defrayed all expenses thus far. A large part of the road is finished, but M. Guyer did not expect to complete it before 1903. Now the question is, who will finish his life work? Aside from his railways, he was greatly interested in manufacturing concerns. His death will be felt greatly by the Greek nation, whose consul general he was for the German and Italian cantons of Switzerland.

A Hammock for Baby.

A cool and comfortable place for the baby, away from the dangers of over-laying, and yet within easy reach of parental watchfulness, is provided in the "hammock sling." This device consists of a hammock swung from the footboard of the bed by davits, in much the same manner as lifeboats are hung on shipboard. Here is an ideal place for the infant. There is no danger of its parents rolling over on it and smothering it to death, as is often done; and yet, should the infant need attention, it is within easy reach. Should the baby be restless, papa, almost without disturbing himself, can reach out with his foot and give the hammock a shove, which will quickly quiet the infant by its soothing, rocking motion.

Brush the Hair.

The very best brushes should always be chosen, and at the very least 100 strokes a day should be vigorously administered. The bristles of the brush should not be so hard as to drag the hair out, nor should they be yielding. It is useless to brush the hair unless the skin of the head be brushed as well. The friction stimulates it and makes the hair glow. Brushing the hair with languid strokes is useless. Vigor and intention are necessary to produce a really good effect and induce the bright, healthy gloss that hair should have.

What They Need.

"I want to tell you, my dear brethren," said Deacon Johnstone to his flock at prayer meeting, "dat in dese days of chainless bikes, hossless karridges, an' sich, dat what we need fo' de glorification of de culled folkses am chickenless coops, razzorless paities, melonless patches, an' crapless games. Does yo' follow me?"—Harper's Bazar.

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.
MRS. V. M. BOISVERT.

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

1847—Emmanuel Marquis Grouchy, marshal of France under Napoleon, died; born 1768.

1852—Henry Clay, American statesman, died at Washington; born 1777.

1861—Elizabeth Barrett Browning, English poet, died in Florence; born in Herefordshire, England, 1806.

1888—Hole-in-the-Day, the Chippewa, richest Indian in North America, died in Minnesota. He had accumulated \$2,000,000; felled by the hand of an assassin, one of his own people.

1888—General Washington L. Elliott died in San Francisco; born 1821.

1896—Ex-President Pelotio of Brazil died near Rio Janeiro, born 1839. Daniel Cady Taylor, noted jurist of Yale, died in New Haven; born 1834. Green Clay Smith, a Union veteran, died at Washington; born 1827.

HOW TO END THE WAR

The Kenosha Gazette, democratic, prints the following:

This is the way the "jingo" press makes reply to honest criticisms made on the failure of Gen. Otis in the Philippines. It is from The Janesville Gazette:

"The Chicago Journal, which in its demand for a short time ago, made more noise than any other paper in the United States, now demands that Gen. Otis be retired. Why not turn the whole matter over to the Journal? What it doesn't know about war is apparently not worth knowing."

Now, the honest facts are that what Gen. Otis does know about war is not worth knowing; and that there are a hundred men below him in rank who could out-class him, and give him all the odds he would ask. It is plain to any one not prejudiced that Otis like many another man before him has too big a job on his hands, and that he hasn't the good, hard sense to realize it.

After reading the above we desire to offer an amendment to the original motion and suggest that the management of the war be turned over to The Chicago Journal and The Kenosha Gazette jointly. This would insure the speedy settlement of the question, and offers the people the surest and most satisfactory solution of the problem. Down with the trained soldiers and up with the democratic editors!

MAN HIS OWN MAKER.

The Florence, Kansas, Bulletin argues that every man can work out his own salvation, and takes no stock in the statement that the poor have no opportunities these days. The Bulletin says:

"This paper wants the address of any man in Kansas worth \$100,000 who did not start as a poor, hard working boy. This paper wants the address of any man who has been governor of Kansas who did not begin as a poor, hard working boy. This paper wants the address of any man who has represented Kansas in congress or in the United States senate who did not begin as a poor, hard working boy. This paper wants the address of any Kansan who is prominent as a lawyer, as a doctor, as an educator, as a writer, as a banker, as a railroad, or as a farmer who did not begin as a poor, hard-working boy. It really looks as if there is no chance any more in this country for the rich man's son."

The State Board of Health has declared war on milk from diseased cattle and advises the citizens of Wisconsin to drink no milk which was not guaranteed to be from cows that had been examined and found free from tuberculosis. According to Dr. Solon Marks, the resolution in regard to milk is a wise measure, as he says a great deal of milk now being sold is sold from diseased cattle.

The Wisconsin university boat crew made a splendid showing at Poughkeepsie, and would have won the race but for an accident. The Badger state should be proud of its athletes. They have shown the world that the U. W. develops the bodies of its students as well as their minds. Health is as necessary as learning if the battle of life is to be won.

A dispatch says a beggars' syndicate, organized and operated in accordance with the latest trust methods, has been discovered in New York by the arrest of two crippled beggars. "Commercial progress" is certainly being spun down to a fine point.

Re-enforcements will be sent to General Otis whenever he decides that they are needed, the administration feeling that he knows more about the situation than the yellow papers do.

The Iowa Silver Republican party has died a natural death and the individual members will go into the democratic party—where they have really been all the time.

We violate no confidence in calling the attention of the bright and entertaining Kenosha Gazette to the fact that much the same thing was once said of General Grant.

Beloit Free Press—"West Milwaukee street in Janesville is to be repaved with brick. That's sensible, as brick is the thing for street paving."

Col. du Paty de Clam has made two attempts to commit suicide. What bet-

ter proof of Dreyfus' innocence could be asked?

Rain did not keep the people at home yesterday, and big crowds took part in the Milwaukee carnival despite the weather.

Ex-Senator Peffer says W. J. Bryan's position is "unamerican." Peffer's reformation is evidently complete.

The democratic deadlock in Kentucky has been broken, and no one was injured by the tin horns.

NEATH THE SHADOW OF DEATH

Elizabeth Chesebro Cummings

Mrs. Elizabeth Chesebro Cummings passed away in San Francisco, California, Saturday June 24, at the age of sixty-three years. She was the widow of the late David A. Cummings and eldest daughter of Mrs. Ezra D. Chesebro of the town of La Prairie, Rock county.

Mrs. Cummings came to Wisconsin with her parents in the '40's. She was married to David A. Cummings in 1858 at Emerald Grove. Until 1893 they made their home on a farm in the town of Johnstown. In 1893 they moved to Cal., where Mr. Cummings died in 1895 at Los Angeles. Three sons were born, Frank of Sioux City, Ia.; Harry of San Francisco and Roy of Stockton, Cal.

Edward Moody.

The funeral services over the remains of the late Edward, beloved husband of Alice Bradley-Moody, who was killed at Chicago last Saturday, by a live wire, were held yesterday morning, at 8:30 o'clock, from Mount Carmel church, Rev. Father Mokilly officiating. Six fellow workmen of the deceased bore the remains of their friend to their last resting place. The interment was at Joliet.

W. H. Selleck

W. H. Selleck, son of Mr. and Mrs. J. O. Selleck, who reside on Center avenue south of the Milwaukee homestead, passed away yesterday afternoon at four o'clock after a long illness, aged twenty-five years. The cause of his death was lung trouble. The bereaved relatives have the sympathy of many friends in their hour of sorrow.

Mrs. Hugh Collins

Funeral services over the remains of the late Mrs. Hugh Collins will be held at the Mary Kimball Mission chapel tomorrow afternoon at 2:30 o'clock, Mary Kimball officiating. The remains will be interred in Oak Hill cemetery.

To the Land Owners and Tillers of the Soil, Greeting:

I respectfully call your attention to the noxious weed, that you will make unceasing effort, to see that none of them are allowed to bear seed. The past winter has frozen out many varieties; especially Canada thistles have in many patches been all killed; and now if a united effort can be had, we may reap good results.

Jealous Woman, Shoots Rival.

Bloomington, Ill., June 29.—Miss Cora Oglesby, an employee of the Hotel Polson, this city, was shot at six times Wednesday morning in a hallway of that hotel by Mrs. Sadie Martin. Four bullets took effect and for a time it was believed that she would die. Later the doctors said there was little danger of fatal results. Mrs. Martin was jealous of attentions paid to Miss Oglesby.

Seven New Cases of Fever.

Santiago, June 29.—Seven new cases of yellow fever were reported Tuesday, and Wednesday the same number of cases developed. There was one death from the disease Wednesday. Thus far, since the outbreak of the epidemic, there have been fifty cases and twelve deaths. The troops who are encamped on the Morro road, south of the city, are entirely healthy.

Jewels of Miss Up-to-Date.

One needs only to take a passing glance into the jewel box of the up-to-date girl to see that her jewelry forms no small part of the beautiful belongings of her wardrobe. For morning and afternoon wear there are beautiful stickpins of every imaginable shape, wrought in every conceivable material. Where one can, however afford to have the stones correspond in color with the object which the pin is intended to represent the result is doubly effective.

That Was High Enough.

Father—What! another dressmaker's bill? My dear girl, you should fix your mind on something higher than dress. Daughter—So I have, papa. I've got my mind fixed on a love of a hat in a downtown milliner's window, and just think, it's only \$19.98. You'll get it for me, won't you, papa, dear?

KRUGER MAY CHOOSE WAR.

He Is Said to Persist in His Demand for Arbitration.

PURCHASING WAR SUPPLIES.

Transvaal Republic Will Be Ready to War if It Comes—Cape Town Loyals Denounce Sir Alfred Milner and Threaten to Secede.

London, June 29.—The Johannesburg correspondent of the Standard says: "President Kruger, it is understood here, persists in his demand for arbitration as an essential condition of any settlement. In the meantime the Transvaal continues buying provisions and war material, and it has arranged with the Netherlands Railway company to have absolute control of the railway lines in the Orange Free State in the event of war."

Cape Town Seeks Danger.

Cape Town, June 29.—A meeting of 4,000 loyalists Wednesday adopted resolutions supporting Sir Alfred Milner in his recent negotiations with President Kruger and thanking the Canadians and Australians for their offers of assistance.

The Rt. Hon. Sir John Gordon Sprigg, former premier of the colony, and many other political leaders were present, and several Johannesburgers spoke.

Sir Gordon Sprigg declared that unless Sir Alfred Milner was absolutely supported there was danger that Cape Colony would secede from the empire.

Fischer's Trip Successful.

Pretoria, June 29.—The conferences between President Kruger and Fischer, a member of the executive council of the Orange Free State, who was the bearer of compromise suggestions from the Free State in the matter of the disputes between the Transvaal and Great Britain, have been concluded. The general impression is that Fischer's mission has been successful. He afterward conferred with Conyngham Green, the British diplomatic agent here.

Mrs. Annie Besant is said to have renounced England altogether and to have adopted eastern customs of living as well as thinking.

CANCER IS DEADLY!

Results Fatally in Nine

Cases Out of Ten—A

Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

big chief; eighty people participate in
this event. Chief O'Connor, of the
brigade, is famed all over the country as
a fine fighter, and his men have been
brought up in the way they should go.
Many cities tried to hire the able fire de-
partment to appear on the Fourth, but
Janesville distanced them all. The at-
traction is an expensive one, but will be
worth all it costs, and more.
In addition to the bands, the Monroe
drum corps will also be here.
Fireworks at Night.

The day's celebration will end with a
magnificent display of Pain's fireworks,
including the following sets pieces:
The Man in the Moon, illuminated.
Washington, illuminated.
Lincoln, illuminated.
Dewey, illuminated.
The Pyric Cascade Fountain.
The Astor Fountain.
Sparkling Caprice Wheel.
The Chinese Fan.
And Many Others.
Excursion rates have been arranged
for on all railways.

Fine Decorations

Long lines of bright colored banners
will flap and crack in the breeze
throughout the business portion of
Janesville July 4. The decorating
committee intend to have the business
streets lined with these banners. Long
cards are to be stretched from telephone
pole to telephone pole with banners
every few feet. At the street intersec-
tions more elaborate drapings will be
arranged.

Each business man is expected to
assist in this decorative idea. Bunting
is cheap. It costs but four cents a
yard, and ten banners, a yard in length,
will answer for a single store front.
Every merchant is requested to pre-
pare ten or more banners and
string them on a thirty foot cord
strong enough to support the strain of
an all day display. This string of ban-
ners should be in front of each store
Monday morning so that the decorating
committee can put them up without
delay. All the work will be done by the
committee. The merchants are merely
requested to prepare the banners and
cord.

Get Good Bunting

It is suggested that there may be wis-
dom in securing bunting of slightly bet-
ter than ordinary quality so that the
banners may be used again during the
bicycle meet. The decorations cannot
fail to be remarkably effective, and it is
hoped that no one will neglect having
the banners prepared. They may be
left with square ends or with either
single or double points, in order to give
variety.

than Oshkosh.

SHERIFF APPLEBY SUES BELOIT WOMAN

NINE HUNDRED DOLLAR MORT-
GAGE INVOLVED.

At Racine Today the Case Was Aired
Before Judge Fish. Several Wit-
nesses Being Sworn—The Plaintiff
Claims That Mortgaged Property is
Not Worth More Than \$150.

Before Judge Fish at Racine, today,
was heard the case of W. H. Appleby
vs. Mrs. Catherine McKevitt.
The plaintiff in the action is the pres-
ent sheriff of Rock county, and the de-
fendant resides in Beloit, where she has
made her home for many years.

The cause of the trouble is over a
mortgage given by Mrs. McKevitt to the
plaintiff, involving \$900.

Two years ago Frank L. Stevens of
this city, asked Sheriff Appleby if he
knew of the McKevitt property in Be-
loitt, and if it was worth loaning \$900
on.

Sheriff Appleby said that he knew of
the property, and that it was the
house and lot that he meant, he would
loan the \$900 wanted.

The money was loaned, and after the
mortgage had run for some time and no
interest was paid, Sheriff Appleby fore-
closed, and received judgment in the
circuit court for Rock county.

When this judgment was given it
was discovered that the mortgage in
question did not cover a house and two
lots in Beloit, as was supposed, but was
only on a single lot in an undesirable
portion of the city.

The mortgage states that Mrs. McKev-
itt agrees to keep the house in good re-
pair, also an insurance of \$1,000, but it
is said that it does not state what
house.

The plaintiff alleges that the property
was misrepresented to him and that he
has made a \$900 loan on a lot not worth
more than \$150.

Several witnesses for both the plaintiff
and defendant are now in Racine.

John McKevitt, former landlord of the
Highland House here, is a son of the
defendant and is one of the most valu-
able witnesses for the plaintiff, swearing
that his mother gave the mortgage on
her house and two lots in Beloit.

Attorney W. G. Wheeler appears for
the plaintiff and C. C. Russell and
William Smith for the defendant.

FACTORY GIRLS GUYED HIM

That Was the Reason Why Joseph Zish-
kee Slipped One.

Joseph Zishkee appeared in the munici-
pal court this morning and pleaded
guilty to the charge of assault and bat-
tery, the complaining witness being
Miss Emma Nickel.

The interested parties are both em-
ployed in the lower cotton mill at Mon-
terey.

Yesterday forenoon Zishkee alleges
that a lot of the girls employed at the
mill started to make a fool out of him
by guying him.

Zishkee says that when he couldn't
stand it any longer he walked over and
slapped Miss Nickel on the left cheek.
She hurried up town and swore out a
warrant for Zishkee's arrest.

The court imposed a fine of one dol-
lar and costs or a total of \$3.44 which
was paid.

A CYCLONE VICTIM

FIFTY DOLLARS SENT FROM
JANESVILLE.

Dr. F. W. Epley, Who Lost Every-
thing He Had At New Richmond,
Receives a Helping Hand From His
Professional Brothers Here—Sum
Was Raised in Short Order.

Dr. F. W. Epley, of New Richmond,
Wisconsin, will have good reason to re-
member members of the medical profes-
sion in Janesville for years to come.

Local physicians have succeeded in
raising the sum of \$50 which has al-
ready been forwarded to the New Rich-
mond doctor, who lost everything that
he possessed in the world as the result
of the terrible cyclone which recently
visited that section of the state.

Dr. Epley is not an entire stranger in
the Bower City and to the majority of
the local physicians he is well known.
He is a prominent member of the Wis-
consin State Medical society and for
some time served as its vice president.

Prior to the cyclone at New Rich-
mond, Dr. Epley was nicely located in
an office and enjoying a good practice.
He possessed a handsome home in a de-
sirable portion of the city and with his
family was as happy as any man could
wish to be.

The day that New Richmond was vis-
ited by the cyclone Dr. Epley and his
family saved only their lives.

The building in which the office was
located was blown in all directions and
the doctor was unable to find a single
instrument or piece of office furniture
that he possessed.

His home and furniture was blown
miles away and as he carried no cyclone
policy he lost everything.

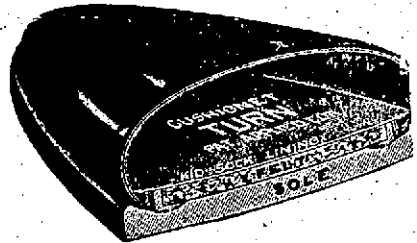

The action taken by the Janesville
physicians is being followed in other
cities of the state and that Dr. Epley
will be well cared for is quite evident.

The felt cushion is stitched to a heavy
canvass which is then covered by the
kid sock lining so that the foot does not
come into contact with the felt and there
are no complaints regarding these Shoes
being too warm for summer wear. The
advantages are in the heavy soles and
heavy filling forming a much better

White Star

COFFEES

are Pure.

The importance of a perfectly pure
Coffee cannot be overestimated. Coffee
should be a beverage, not a drug. Nature
intended it as a beverage, therefore its
preparation should have this thought in
mind. Good Coffee, well made, is in no
wise injurious, but on the other hand is of
a necessity. White Star Coffees are the
products of carefully cultivated varieties
that have been harvested, cured, roasted,
blended and packed on scientific prin-
ciples, and as a result are perfectly pure.
Costs but little more to have pure Coffee
than the impure, and the amount of good
to be derived is incalculable. White Star
coffee sells at from 20 to 38c a pound.

E. CALCULATION.

He Had Bought a Good Breaker.

Season of the year—the 1st of October—it is the duty of the commissioners who have charge of the great parks in Chicago to permit fishing in the artificial lakes at certain hours in the morning, the fishermen in all cases being required to use the boats that are kept for hire. This is to prevent the banks from being thronged with gangs of hoodlums. Early one October morning the editor of one of the great Chicago dailies appeared at a west side park with a friend, both equipped with fishing outfits of the most approved pattern. They secured a boat, and then the editor inquired if there were any live minnows on hand. The keeper of the boathouse inspected his bait bucket and found just one, a distinctive specimen, about an inch and a half in length. He fished this out and handed it over. Throwing him a silver half dollar and telling him to keep the change, the editor took the minnow, climbed into the boat and rowed out to the middle of the lake, where he fished for half an hour without result. At the end of that time he hauled in his line, looked carefully at the minnow, took a pencil and note book from his pocket, did a little figuring, and returned to the shore. "What did you get?" he was asked when he appeared at the office later in the day. "One fish," he replied, "and it cost me \$200 a pound." This, it is believed, is the highest price ever paid for live fish in Chicago.

YAWNING

Must Now Be Considered a High Complication.

Have you ever observed at a theater or concert that the people who are most deeply interested appear between the acts to be quite weary of the whole thing, yawning half a dozen times in succession? The reason of this is a physiological one. When your attention is much absorbed in anything exciting or touching, you breathe in a very shallow manner, and take into your lungs only half enough air. Consequently, when your attention is relaxed, you have to make up the deficiency. This you do by yawning, which, after all, is only breathing a very deep breath. If you watch a man at a play, and observe that he is greatly moved by some incident, you may feel sure that when the scene ends he will yawn, and a moment or two later yawn repeatedly. Of course the yawning, so far from being a sign of weariness, is a proof of the liveliest appreciation. Very often you will observe the same phenomenon in a girl reading a novel. And by her yawns you can tell when the end of some absorbing incident is reached.

Little Korea.

An evidence of Uncle Sam's ability to meet the world's every need is the fact that he supplies several governments with postal stamps. It has recently become known that the Korean stamps are printed in this country. The United States consular reports describe them as of four denominations and all alike except in color and value. In the center is the national emblem, an ancient Chinese phallix device; at the corners of the centerpiece are four characters, signifying the spirits that, Atlas like, uphold the earth, while in each corner of the stamp is a plum blossom, the royal flower of the present Ye dynasty, which has held the throne more than 500 years. Each stamp bears inscriptions in three languages—Chinese, Korean and English. At the top are ancient Chinese characters and at the bottom their Korean equivalents. On the right are Korean characters and on the left Chinese, giving the denominations, while just below the center is their English translation.

Author and Business Man.

In addition to his writing, Max Pemberton is a man of business. He looks after the interests of a large American publishing house, whose English literary agent he is. His home in West Hempstead is an ideal place, and there, with his charming wife and family, his happiest hours are spent. Mr. Pemberton was dragged into literature, as it were, by force of circumstances. He was the editor of a paper for boys called Chums, and he was compelled to write a story for young readers once a week. From this came more ambitious work, until, in time, he included grown-ups among his readers, and his reputation was made. Personally, Mr. Pemberton is a rare combination of business acumen and literary talent. He is capable of turning his attention to many different things at a moment's notice.

Biggest Well in the World.

The greatest well in the world is in an edifice before the great temple of Buddha, at Tokio. It weighs 1,700,000 pounds and is four times greater than the great bell of Moscow, whose circumference at the rim is nearly sixty-eight feet and whose height is twenty-one feet.

BIGGEST AMERICAN BATTLESHIP

Now Being Built by the Man Who Made the Oregon.

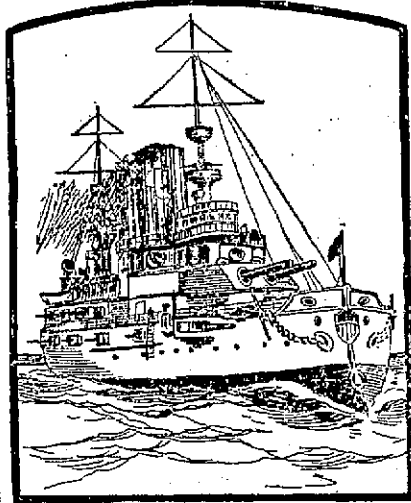

By Lieutenant H. R. Gahan.

In the same yard where the Oregon was built there was laid the other day the keel for a new battleship which will be the biggest ever constructed for the United States navy. When she is christened, some two years hence, she will be named the Ohio. She will have a length of 388 feet on the water line, which will make her 40 feet longer than the Oregon and 20 feet longer than the Iowa, today the biggest of Uncle Sam's fighting ships.

The new Ohio will cost about \$3,000,000. She is being built at the Union Iron works in San Francisco, of which establishment Irving M. Scott is the head. Mr. Scott is probably the most famous builder of warships in the world, the performance of the Oregon having given him this distinction. Many of the same machinists who helped build the Oregon are at work on the new naval monster. She will not only be built just as honestly as was the Oregon but she will be faster and more formidable in many ways, as well as bigger.

With her 388 feet of water line the Ohio will have a midship width of 72 feet 3 inches, a displacement of 12,500 tons and a speed of 18 knots an hour. The Oregon's beam is 68 feet 3 inches and her displacement 10,231 tons. The Ohio will be able to carry 2,000 tons of coal in her bunkers.

Just what the actual speed of the new battleship will be no man can say, but if the record of the Oregon

BATTLESHIP OHIO AS SHE WILL APPEAR AT SEA.

is taken into account it may safely be predicted that she will be the swiftest warship of her size and class afloat. The Oregon was built for a 15 knot ship, but on her trial, over a 62 knot course she went at an average speed of nearly 17 knots.

In her long race around Cape Horn during the war she made a record which will not soon be beaten by a battleship, and she turned up in Cuban waters in time to chase and overhaul Cervera's 20 knot flagship. A few months after she was sent clear around the world, and when she entered Manila Bay she was still ready for duty.

The Ohio may never be given such severe tests as these, but Uncle Sam's naval experts expect that if she should she would be found just as ready to meet them as was the Oregon.

The bluejackets in the navy are much interested in the building of this new battleship. Here is a conversation on the subject which I overheard at the Mare Island navy yard the other day:

"Bigger than the Iowa," exclaimed one man-of-war's man. "I should say she would be. Why, mate, you could put the Iowa inside of this new one; aye, and hang the New York from her port davits with the Baltimore swung to the starboard."

"I'd like a berth aboard of her when she's commissioned."

"If I take on again I'll have one."

The guns of the Iowa will not be as large as those of the Oregon and Iowa. Her largest rifle will be 12 inches against the 13 inch machines of the other two. She will have no 8 inch guns at all, as have the others, but her secondary battery will include sixteen 6 inch rifles. It is estimated that the smaller calibers will be more effective with smokeless powder, which is to be used exclusively in the navy of the future.

The main armor belt extends from the bow to the after turret. Amidships the steel is 12 inches thick at the top and 8½ inches thick at the bottom. This thickness extends from the after to the forward turret, then tapers gradually to 4 inches at the stem. The whole side, amidships, is protected by 5½ inch armor. The turrets are 12 inches thick in front.

The Ohio's engines will be of the latest design, with all the modern improvements in machinery. There will be 12 Thornycroft water tube boilers, the first of the kind to be put in any war vessel built on this coast. Scotch boilers were used in the other craft. The Ohio will have two propellers. On account of the boilers the smokestacks will be three in number. The Ohio will have two military masts, each having two tops. The complement of the Ohio will be 418 bluejackets and a marine guard of 60 men. She will carry one flag officer, one commanding officer, 16 ward room officers, 12 junior officers and five warrant officers.

He Didn't Feed Any More.

A very subdued-looking boy of about 13 years, with a long scratch on his nose and an air of general dejection, came to his teacher in one of the Boston public schools and handed her a note before taking his seat and becoming deeply absorbed in his book. The note read as follows:

"Miss B—: Please excuse James for not being there yesterday. He played trochant, but I guess you don't need to lick him for it, as the boy he played trochant with an' him fell out, an' the boy licked him, an' a man they sassed caught him an' licked him, an' the driver of a sled they hung onto licked him allso. Then his pa licked him, an' I had to give him another one for sassing me for telling his pa, so you need not lick him until next time. I guess he thinks he better keep in school hereafter."—Harper's Bazar.

Nuts for the Monkey.

"Dan," said a four-year-old to his brother, "give me a penny to buy a monkey." "We have one monkey in the house already," said his brother. "Who is it, Dan?" "It is you," was the reply. "Then, Dan, give me a penny to buy nuts for the monkey." The brother could not resist this appeal.

The highest income received by any chorister in Europe or America is that of \$4,500 a year paid to Miss Clementina de Vere for her services as leading soprano in Dr. Paxton's church in New York.

LATE NEWS BY TELEGRAPH.

SPANIARDS RESIST TAXATION

Discontent Threatens to Ripen Into Revolution.

WHOLE COUNTRY IS AFFECTED.

July 1 May See a General Refusal on the Part of the People to Meet the Demands of the Government—Agitation Is Growing.

Madrid, June 29.—It is believed that July 1 will see a general refusal on the part of the Spanish people to pay taxes under the new regime. The agitation throughout the country is tremendous, and the situation amounts to the beginning of a revolutionary period. On every hand people shout "Down with taxation!" "Death to the Jesuits!" Martial law is still in force in Valencia and Saragossa, and in Granada and Seville murmuring against the government is no less open. One may expect anything at the end of the month.

The government has increased the severity of its censorship.

RUMOR OF COMING CARLIST REVOLT

Havana Disturbed by Wild Stories of Rioting in Spain.

Havana, June 29.—The Regeneracion Espanola, the Carlist organ, sneers at the Madrid telegrams published in the local papers here. It says: "The Spanish censor is doing his best to deceive the world regarding the true situation in Spain. The pretended riots are merely ripples before the genuine revolt in favor of Don Carlos."

Rumors that the Carlists have taken the field are rife in Havana, and are earnestly considered in the clubs and cafes. The stock exchange is affected seriously, and Spanish futures fluctuate with no buying. Contract purchases for future delivery of wines, oil, olives, beans and canned goods were offered but no sales were reported.

There is a general feeling of uneasiness among holders of Spanish values.

Believe They Have Matthes.

Galena, Kas., June 29.—Peter Maaygard, a member of the Salvation Army of Galena, is under arrest on suspicion of having shot State Senator Wall at Staunton, Ill., last August. Maaygard takes his arrest very coolly and protests his innocence. He admits that he was in Illinois about the time of the murder, but denies absolutely that he knows anything about it. The officers here are confident he is Matthes.

Frisco Fears Plague.

San Francisco, Cal., June 29.—This city is much wrought up over the danger from bubonic plague, alleged to have been brought here by the Japanese steamer Nippon Maru. It is known that a young Japanese girl died of the plague on the steamer two days before the vessel reached here, and was buried at sea. The steamer has been placed in strict quarantine.

The maiden's dream of love and happiness can be fully realized by taking Rocky Mountain Tea. Brings bright eyes, lovely color, health. Smith's Pharmacy, Kodak Agents.

Paucaforte May Retire Soon.

London, June 29.—Truth understands that Sir Julian Pauncefote, British ambassador to the United States, who is now attending the peace conference at The Hague, will retire from the ambassadorship very shortly. A report is current that he will be succeeded by the Hon. Francis Hyde Villiers, one of the assistant under secretaries to the foreign office.

For the McCoy-Fitzsimmons Fight.

Denver, Colo., June 29.—B. H. Benton, representing "Kid" McCoy, has gone to New York to complete arrangements for the coming fight between McCoy and Fitzsimmons. McCoy has canceled all his engagements for sparring exhibitions and will spend some time fishing and mountain climbing before going into training.

Ryan Willing to Fight McCoy.

Syracuse, N. Y., June 29.—Tommy Ryan expressed his willingness to fight Kid McCoy, but said he would not accept the offer from Denver if some other club should offer a larger purse. Ryan said he would post a forfeit with Lou Houseman. Of McCoy's willingness to fight, Ryan professed to be skeptical.

Porter Talks of Cuba.

New York, June 29.—Robert P. Porter sailed for Europe Wednesday on the St. Paul. Before he sailed Mr. Porter talked about Cuba. He said absolute annexation was the only thing for the island and that capital would be shy of investment until that was assured.

Story About Otis Is Denied.

St. Louis, June 29.—A special to the Republic from Washington says: "When questioned as to the report that Gen. Harrison Gray Otis is to succeed Secretary Alger, the officials at the white house said there is no foundation for the report."

McKinley's Policy Indorsed.

Aberdeen, S. D., June 29.—The state republican convention met here Wednesday. The resolutions adopted are a strong indorsement of McKinley's foreign policy, and a declaration of fealty to the money plank of the St. Louis convention.

NATIONAL REFORM DISCUSSED.

Social and Political Conference Begins Sessions in Buffalo.

Buffalo, N. Y., June 29.—The national social and political conference was called to order Wednesday by Edwin D. Mead of Boston. N. O. Nelson of St. Louis presided. The conference, as explained in the official programme, "is a meeting of progressive men and women of various political and social beliefs to consider the present condition of American politics and to determine what is the next thing to do."

The topic in the morning was "National Monopolies—(1) Industrial Monopolies, (2) Transportation, (3) Currency."

Mr. Mead in his address declared that the gathering was not one of pessimists nor a convention of despairers, but a meeting of believers, an assembling of people who believe that this government is great and glorious, and will be still more great and glorious, who come here to discuss the questions of the day and decide upon the next step in reform.

Liberal Ministry May Follow.

Berlin, June 29.—The New York Journal correspondent cables: "Owing to Kaiser Wilhelm's summer excursion in Scandinavia the second reading of the Rhine-Elbe canal bill has been deferred to the middle of August, when his majesty is expected to have returned to Berlin. The Berlin Tageblatt says that this postponement will only prolong the agony of the ministerial crisis, as the bill is sure of defeat, which means the downfall of Dr. Miquel, the minister of finance, and his conservative colleagues, and the creation of a liberal ministry, with Count von Buelow as the head."

Mennage Gives Himself Up.

Minneapolis, June 29.—Louis F. Mennage, the fugitive president of the defunct Northwestern Guaranty Loan company, which failed disastrously May 17, 1893, returned to Minneapolis Wednesday and gave himself up to Sheriff Megard. There are two indictments against him for grand larceny, and after six years of voluntary exile in Guatemala and Mexico he determined to come back and give himself up.

Detroit Will Be Decorated.

Detroit, Mich., June 29.—Banners of welcome and decorative devices will be permitted to obstruct the view of Detroit streets during the international Christian Endeavor convention next week. The city council has taken action suspending the operation during the month of July of an ordinance prohibiting stringing banners across streets. Accommodations have now been provided for 40,000 delegates.

Senator Thurston Quite Ill.

Washington, June 29.—Senator-elect Hayward of Nebraska, who is here, is authority for the statement that his colleague, Senator John M. Thurston, is quite ill at the Cairo hotel in this city, threatened with nervous prostration. Senator Hayward was with Senator Thurston last night.

For Young Negro Criminals.

New York, June 29.—C. P. Huntington has bought a tract of land of 1,350 acres in Hanover county, Virginia, where, at his expense, a well-equipped building, with the latest modern improvements, is to be erected for the confinement of juvenile offenders of the negro race.

More Troops for the Frontier.

Moscow, June 29.—According to dispatches from Constantinople, the sultan is not satisfied with the situation on the Serbian frontier, and has decided to send forward to the neighborhood of Jablonitz fresh battalions of Turkish troops.

The only way to cure constipation is

THE BASEBALL REPORT.

Games Played Yesterday in the Two Leading Leagues.

St. Louis dropped a little farther behind yesterday through a defeat by Baltimore. The latter ousted Tebeau's men from fifth place, and is now Chicago's nearest pursuer. The Phillies by an eighth inning rally won out at Louisville. Cincinnati downed Washington and recaptured seventh place. Rain deprived Boston of a probable victory at Cleveland. The games:

Smoke Nuisance in London.

Sir W. B. Richmond is pursuing his campaign against the smoke of London. The Coal Smoke Abatement society, over which he presides, is attracting leaders of artistic and scientific circles of the metropolis and now seeks to enlist as well the skill of those in the mechanical world. At a recent meeting of the committee it was decided to give gold, silver and bronze medals to the three best exhibits in the coal smoke abatement section of the forthcoming building trades exhibition at agricultural hall, London. Sir W. B. Richmond has promised to design the medals.

VICI KID

is the mellowest, handsomest, most lasting of all kids. It takes a better polish and keeps it. It is warmer and dryer.

VICI DRESSING

puts new life into the old kid shoes, and keeps it in the new kid shoes. With it, used as directed, kid shoes should be good twice as long as without it.

VICI POLISH

brightens any kid as no other polish can. A lasting polish. Easy as winking to put it on.

They are all the result of special processes known only to and operated by Robert H. Foardner.

This week we are teaching shoe economy from proper dressing. The lesson learned will give double life to shoes. All free of charge.
